

[ominous whooshing]

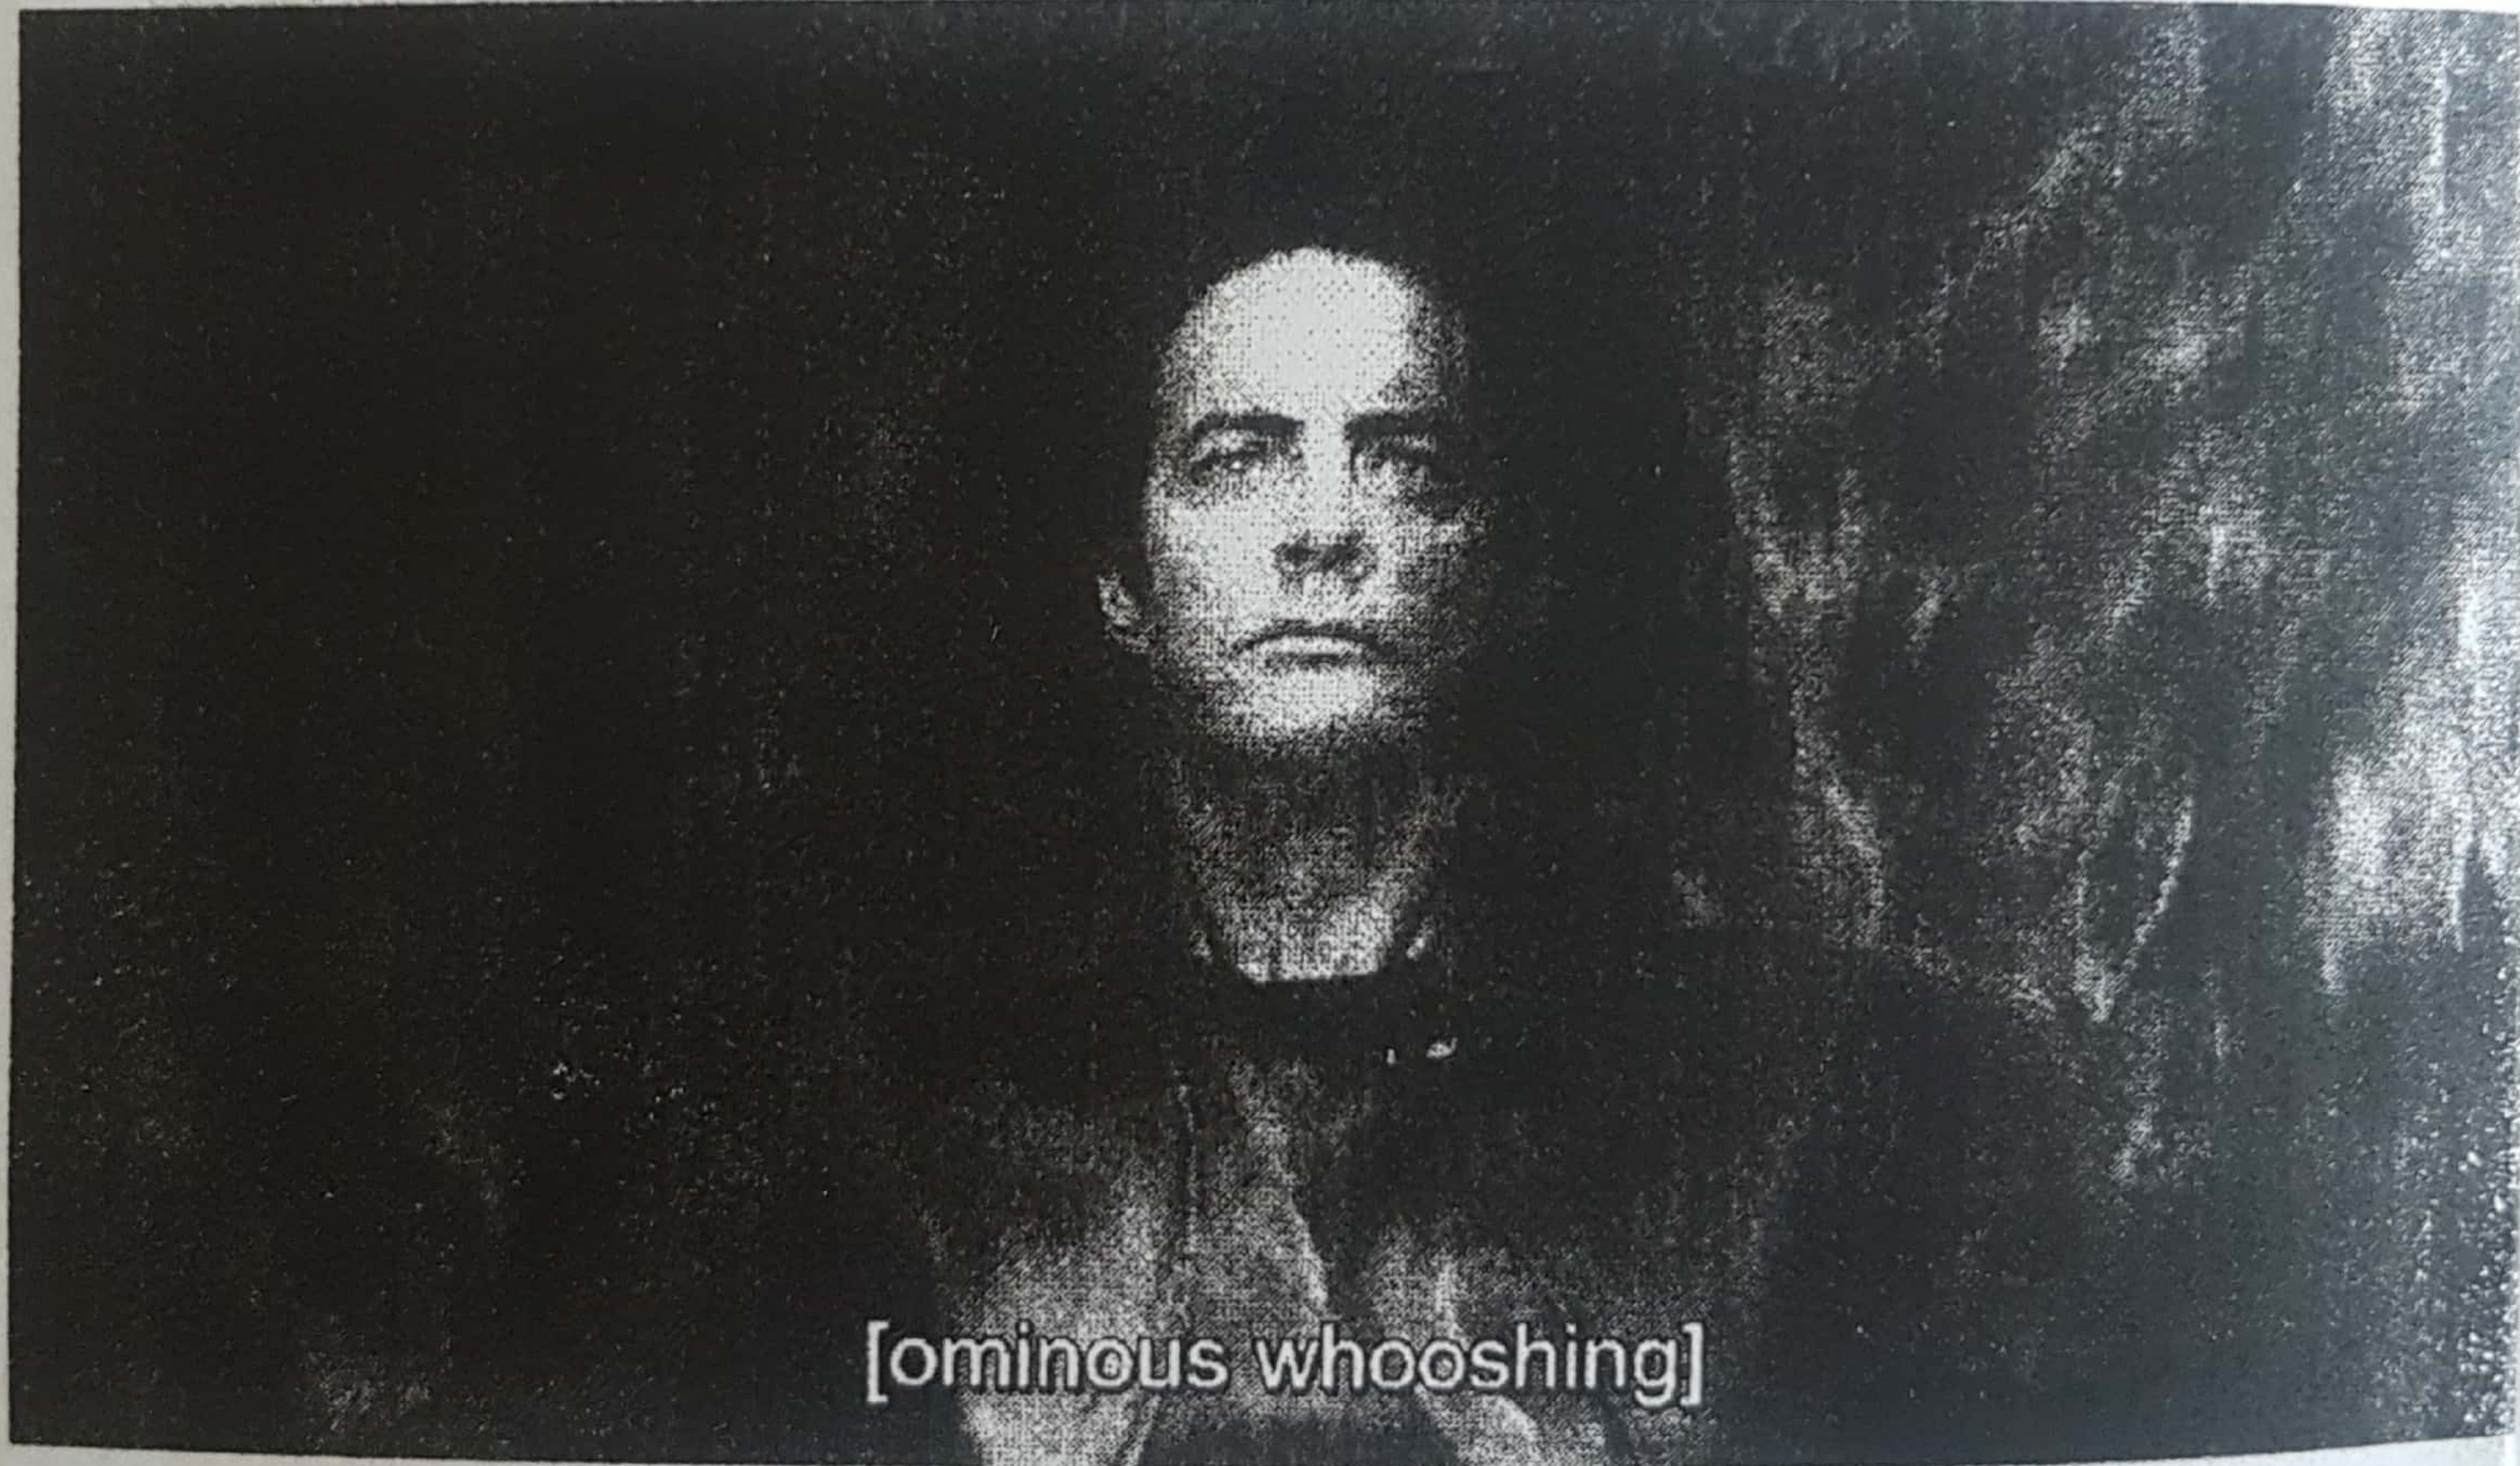

I recently finished watching
TWIN PEAKS.

I kept noticing the word "whooshing" coming
up in the subtitles in the last episode.

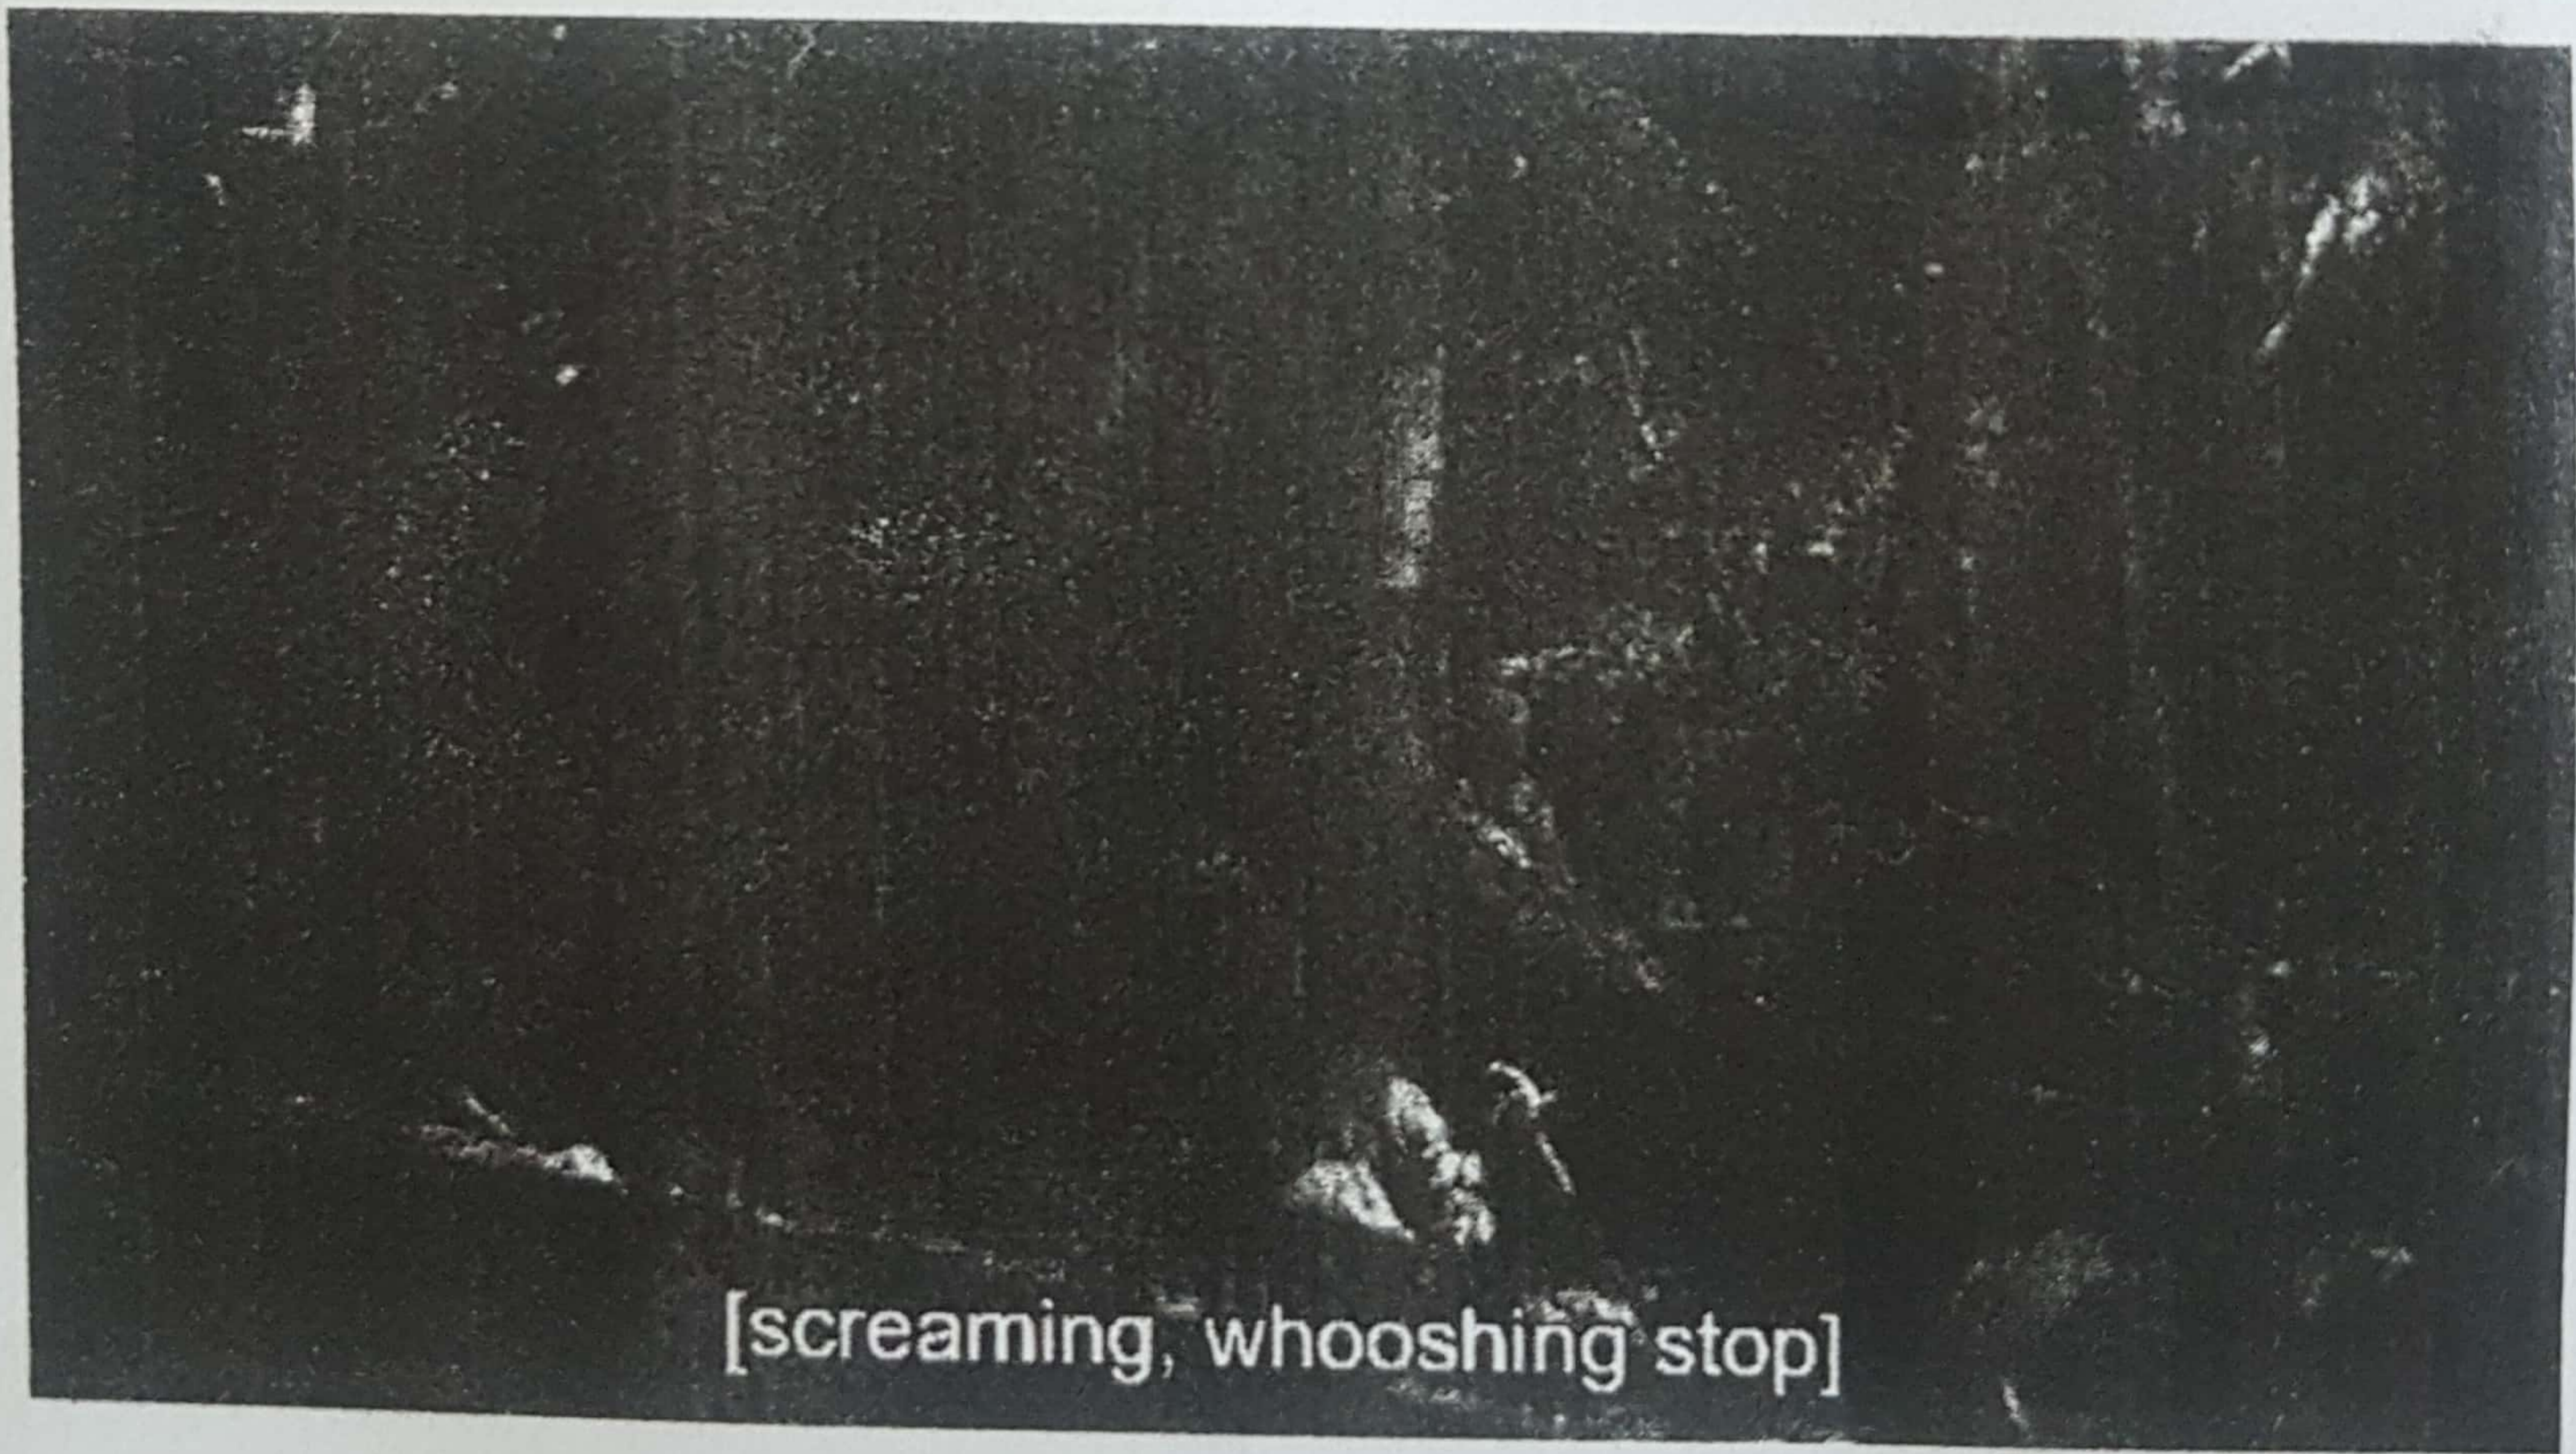

This is just screenshots of every time it
appears in that episode.

You sure you want to do this?

[ominous whooshing]

[screaming, whooshing stop]

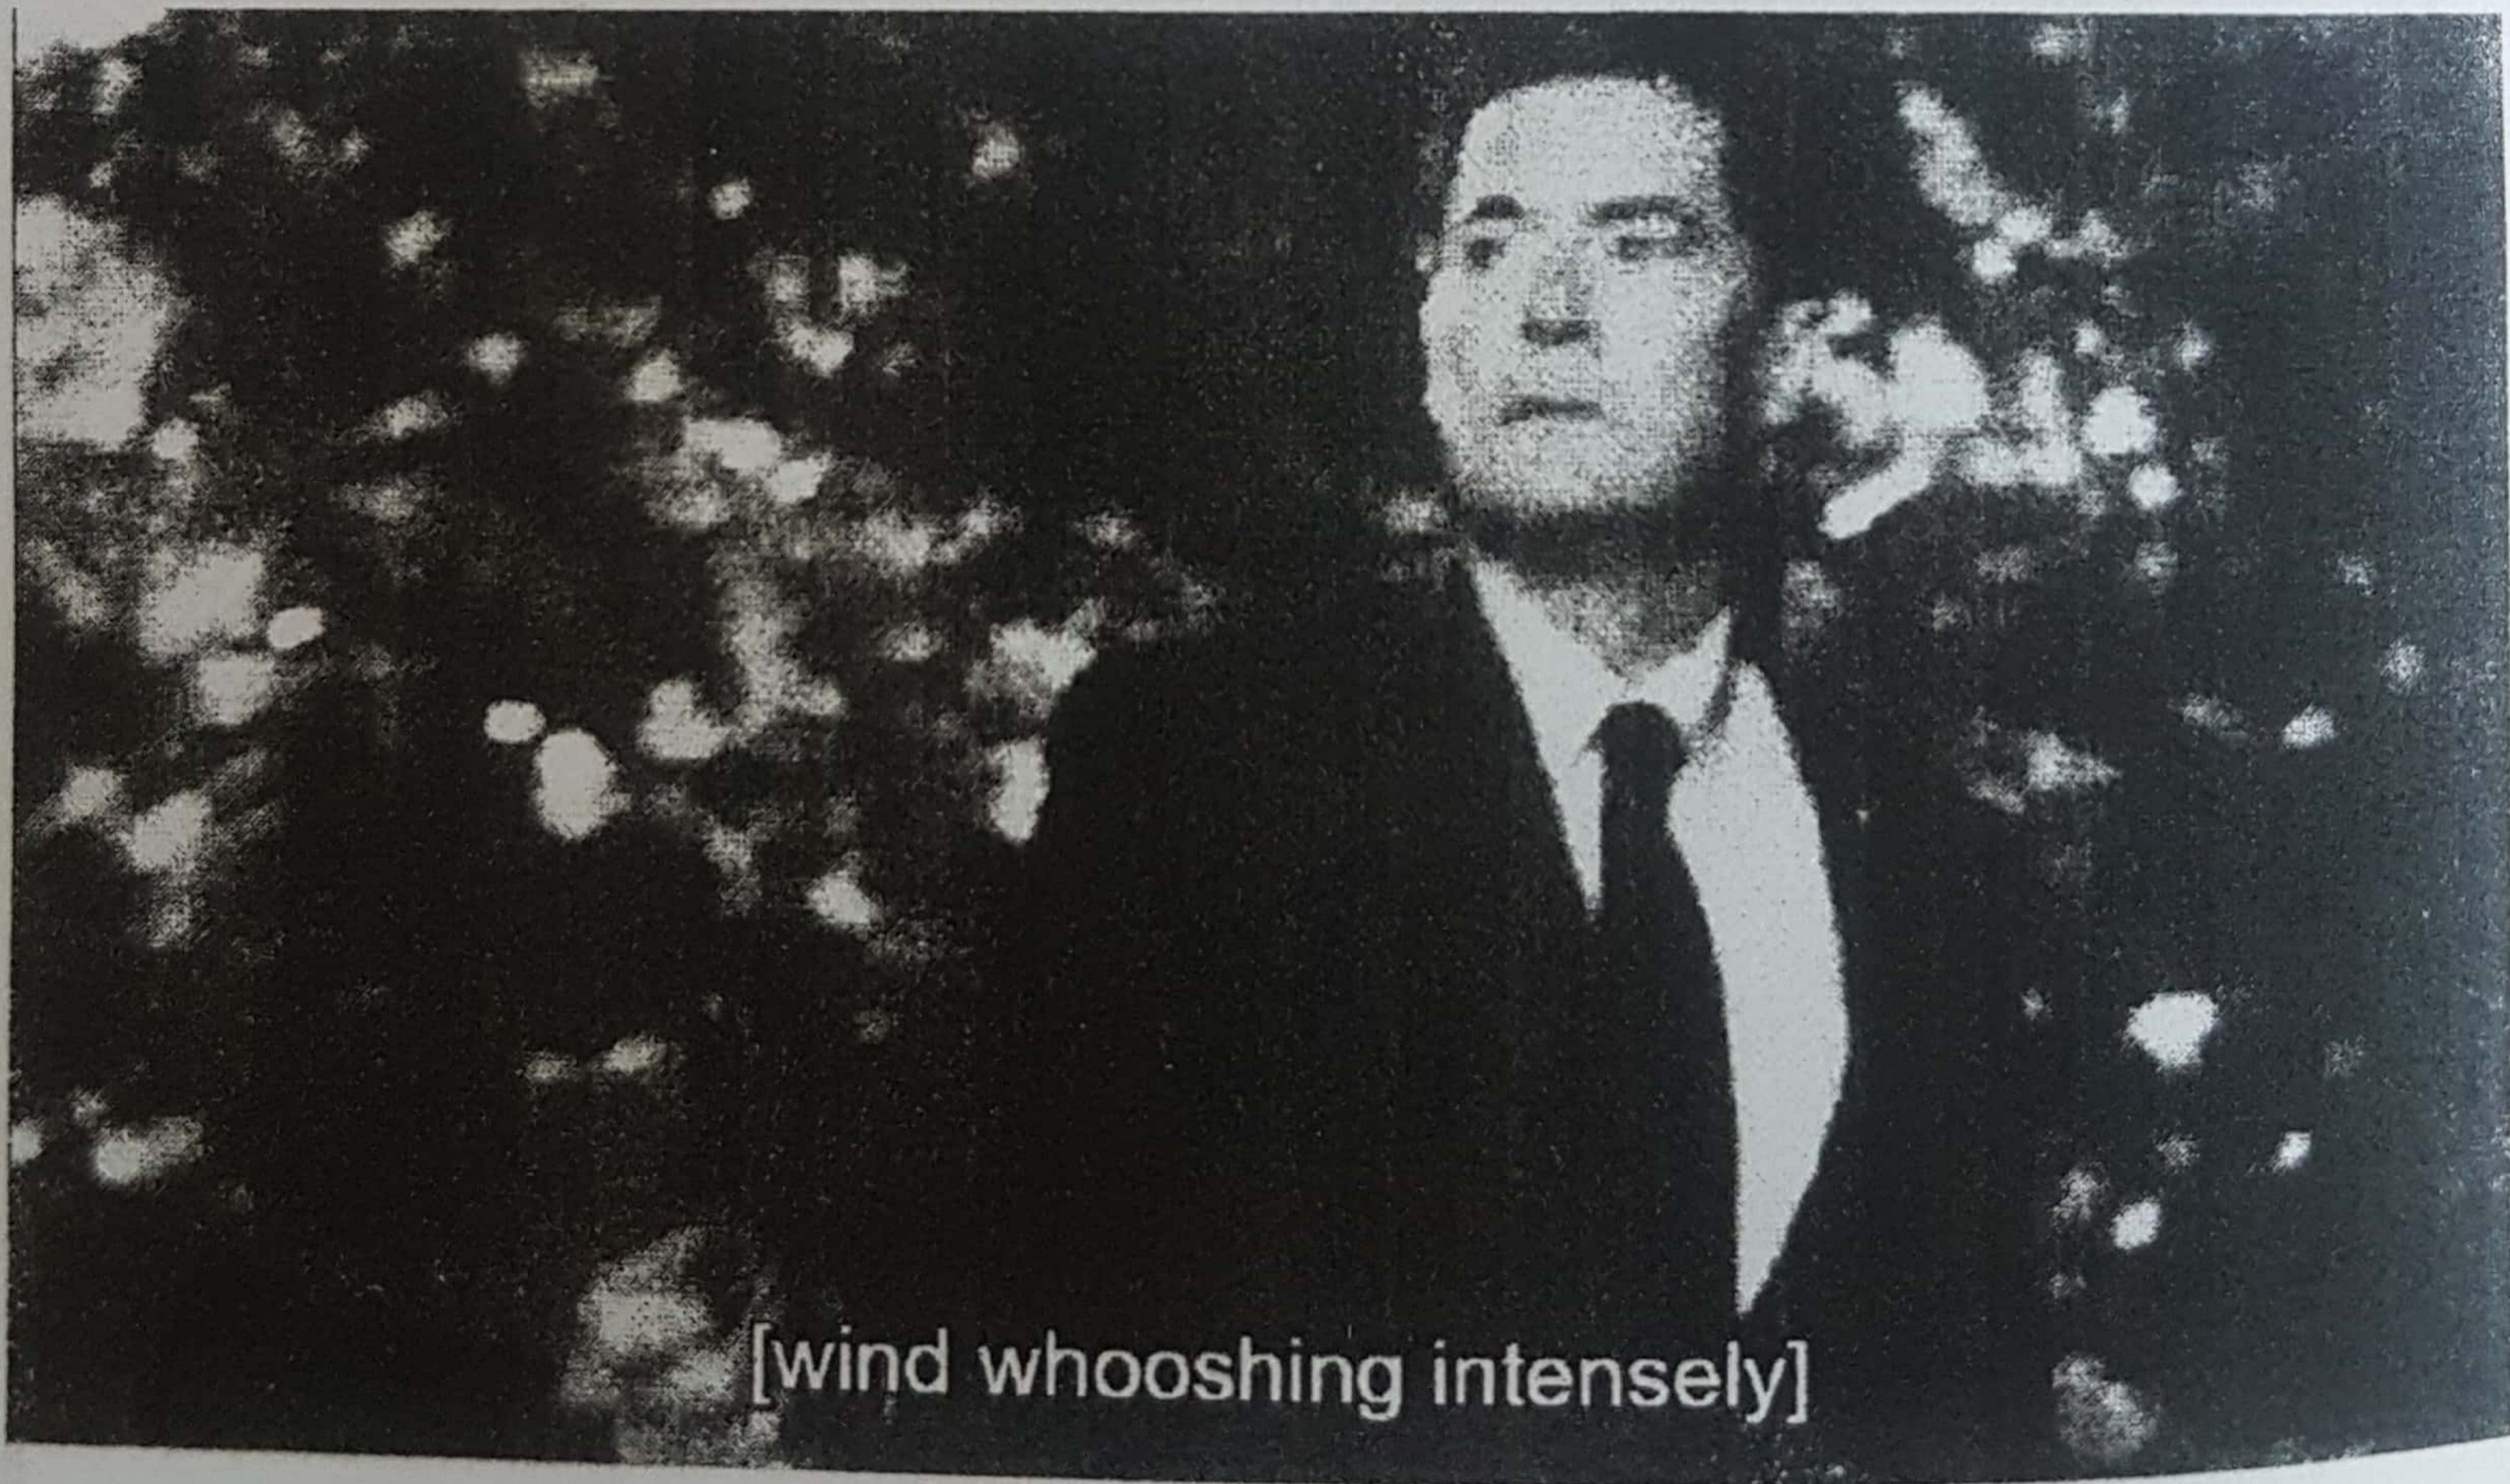

- [insects chirping]

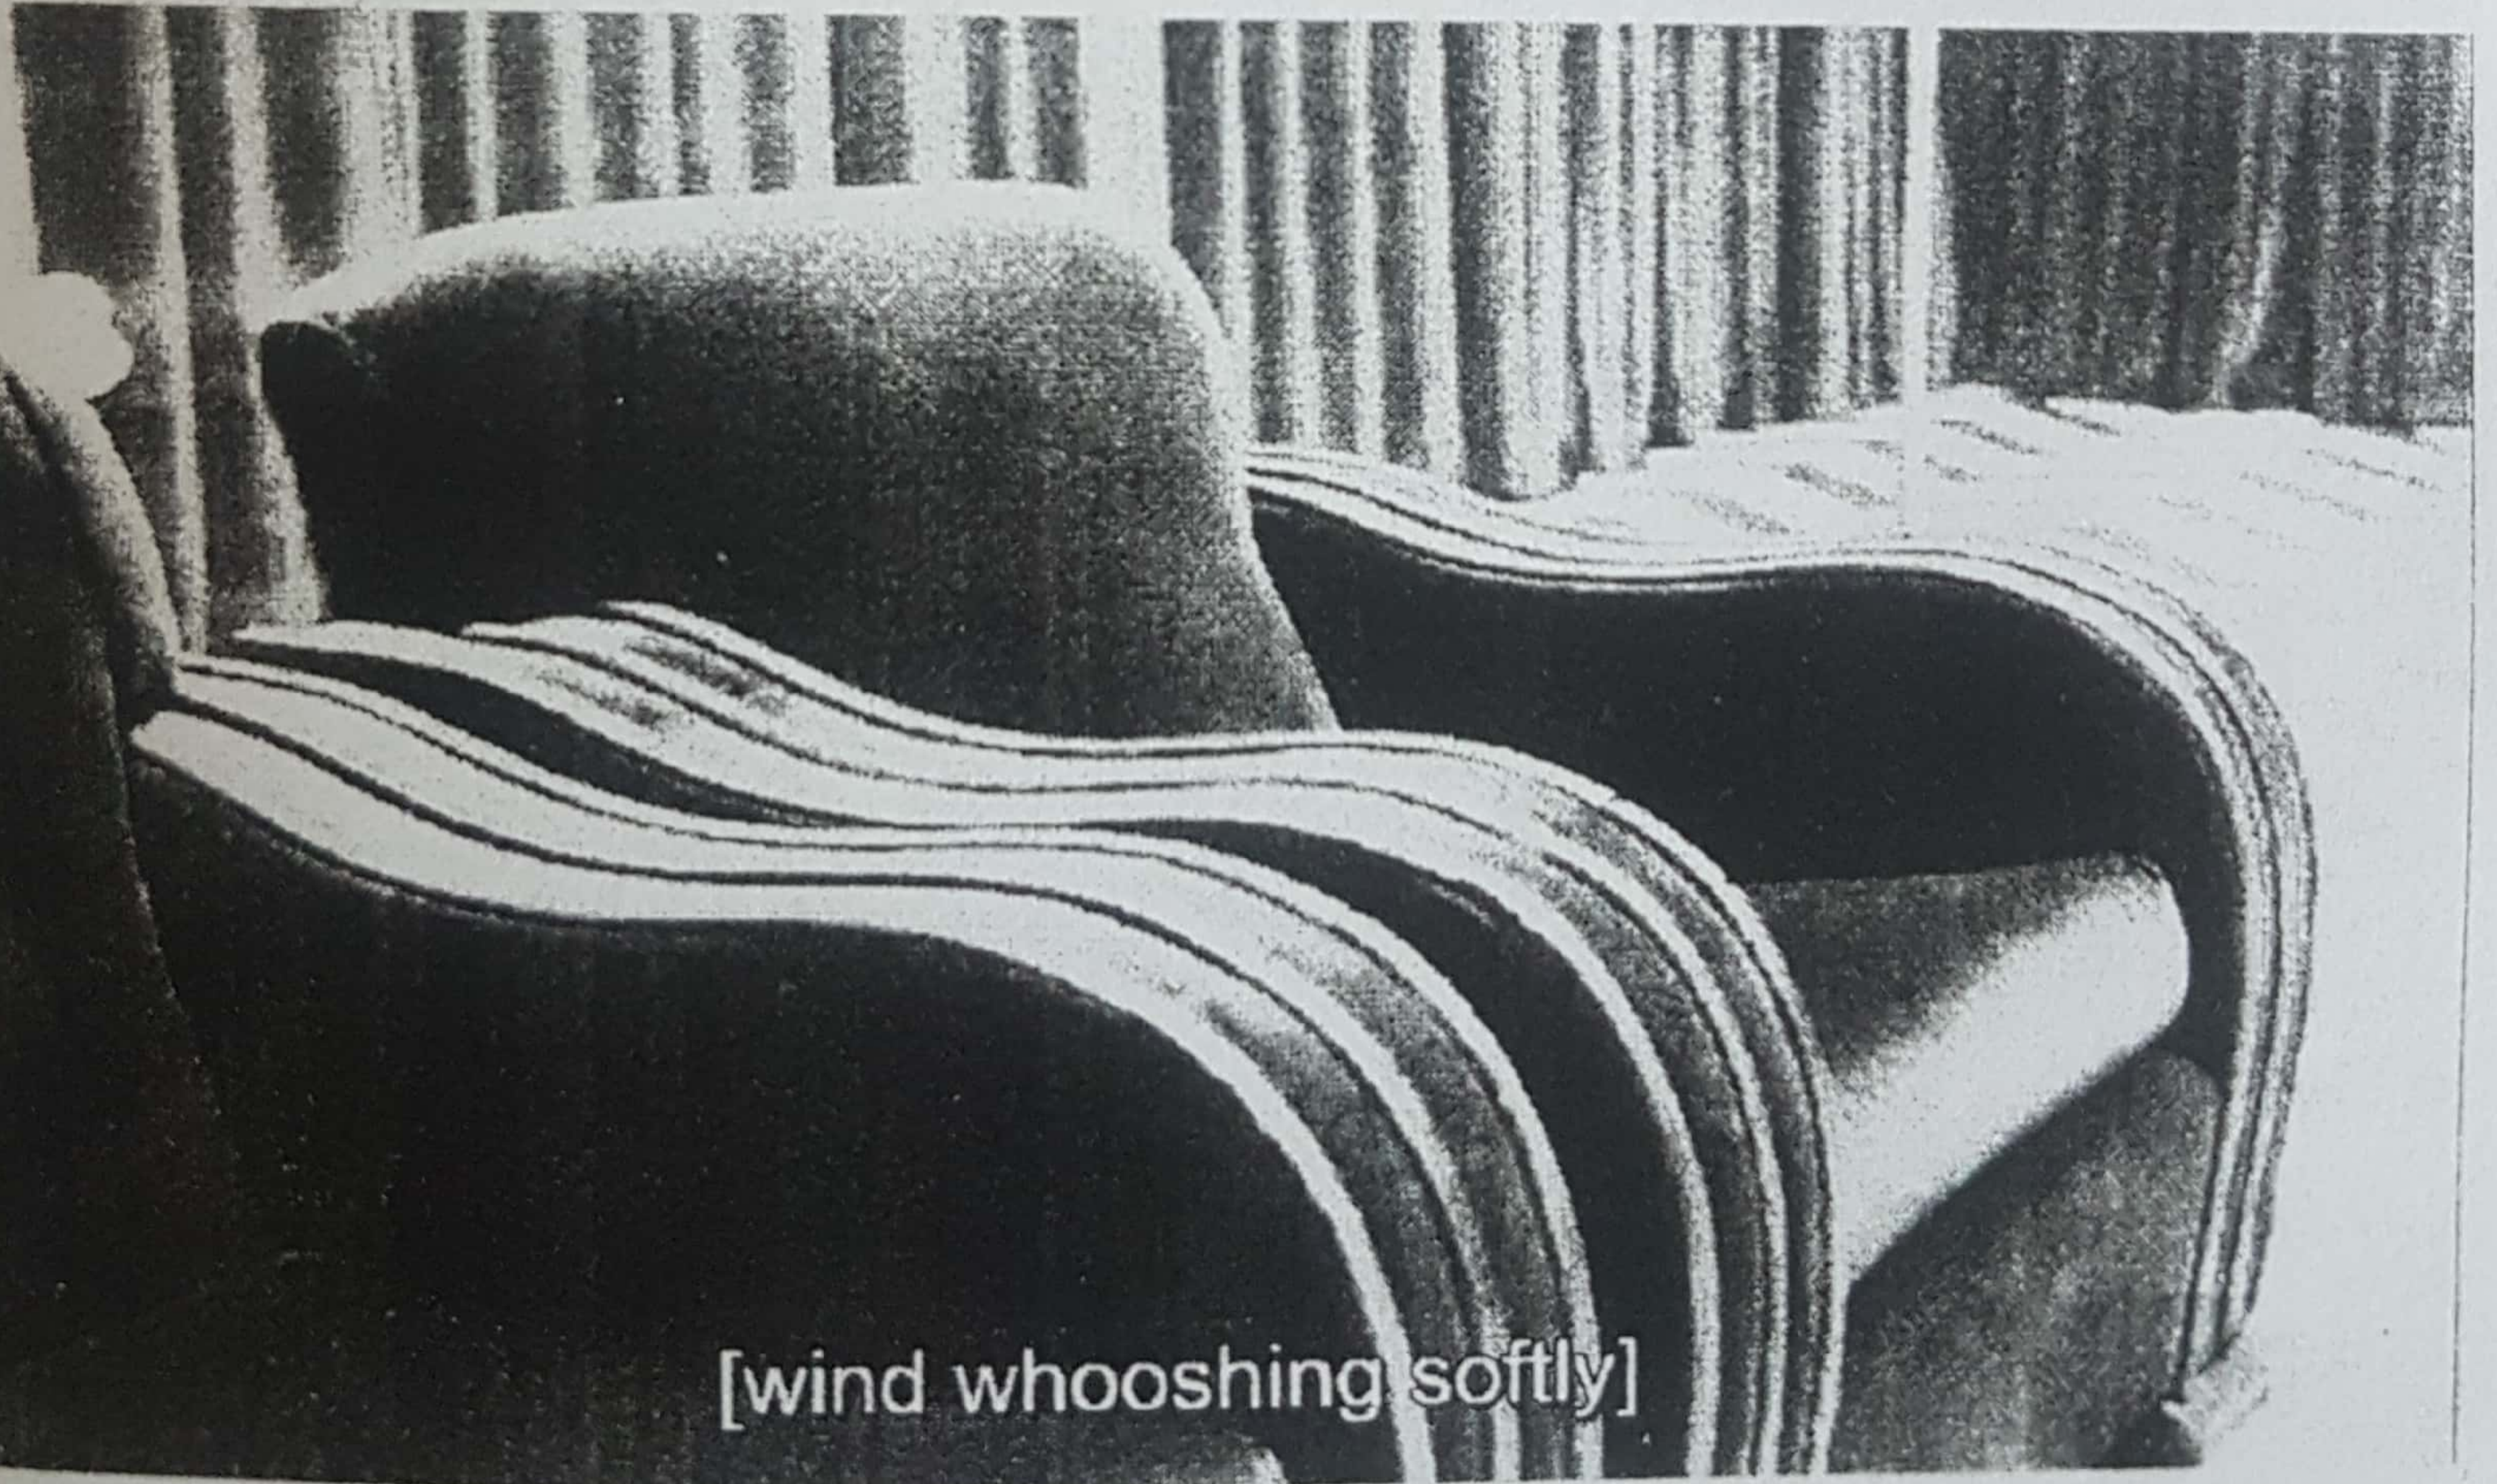

- [wind whooshing softly]

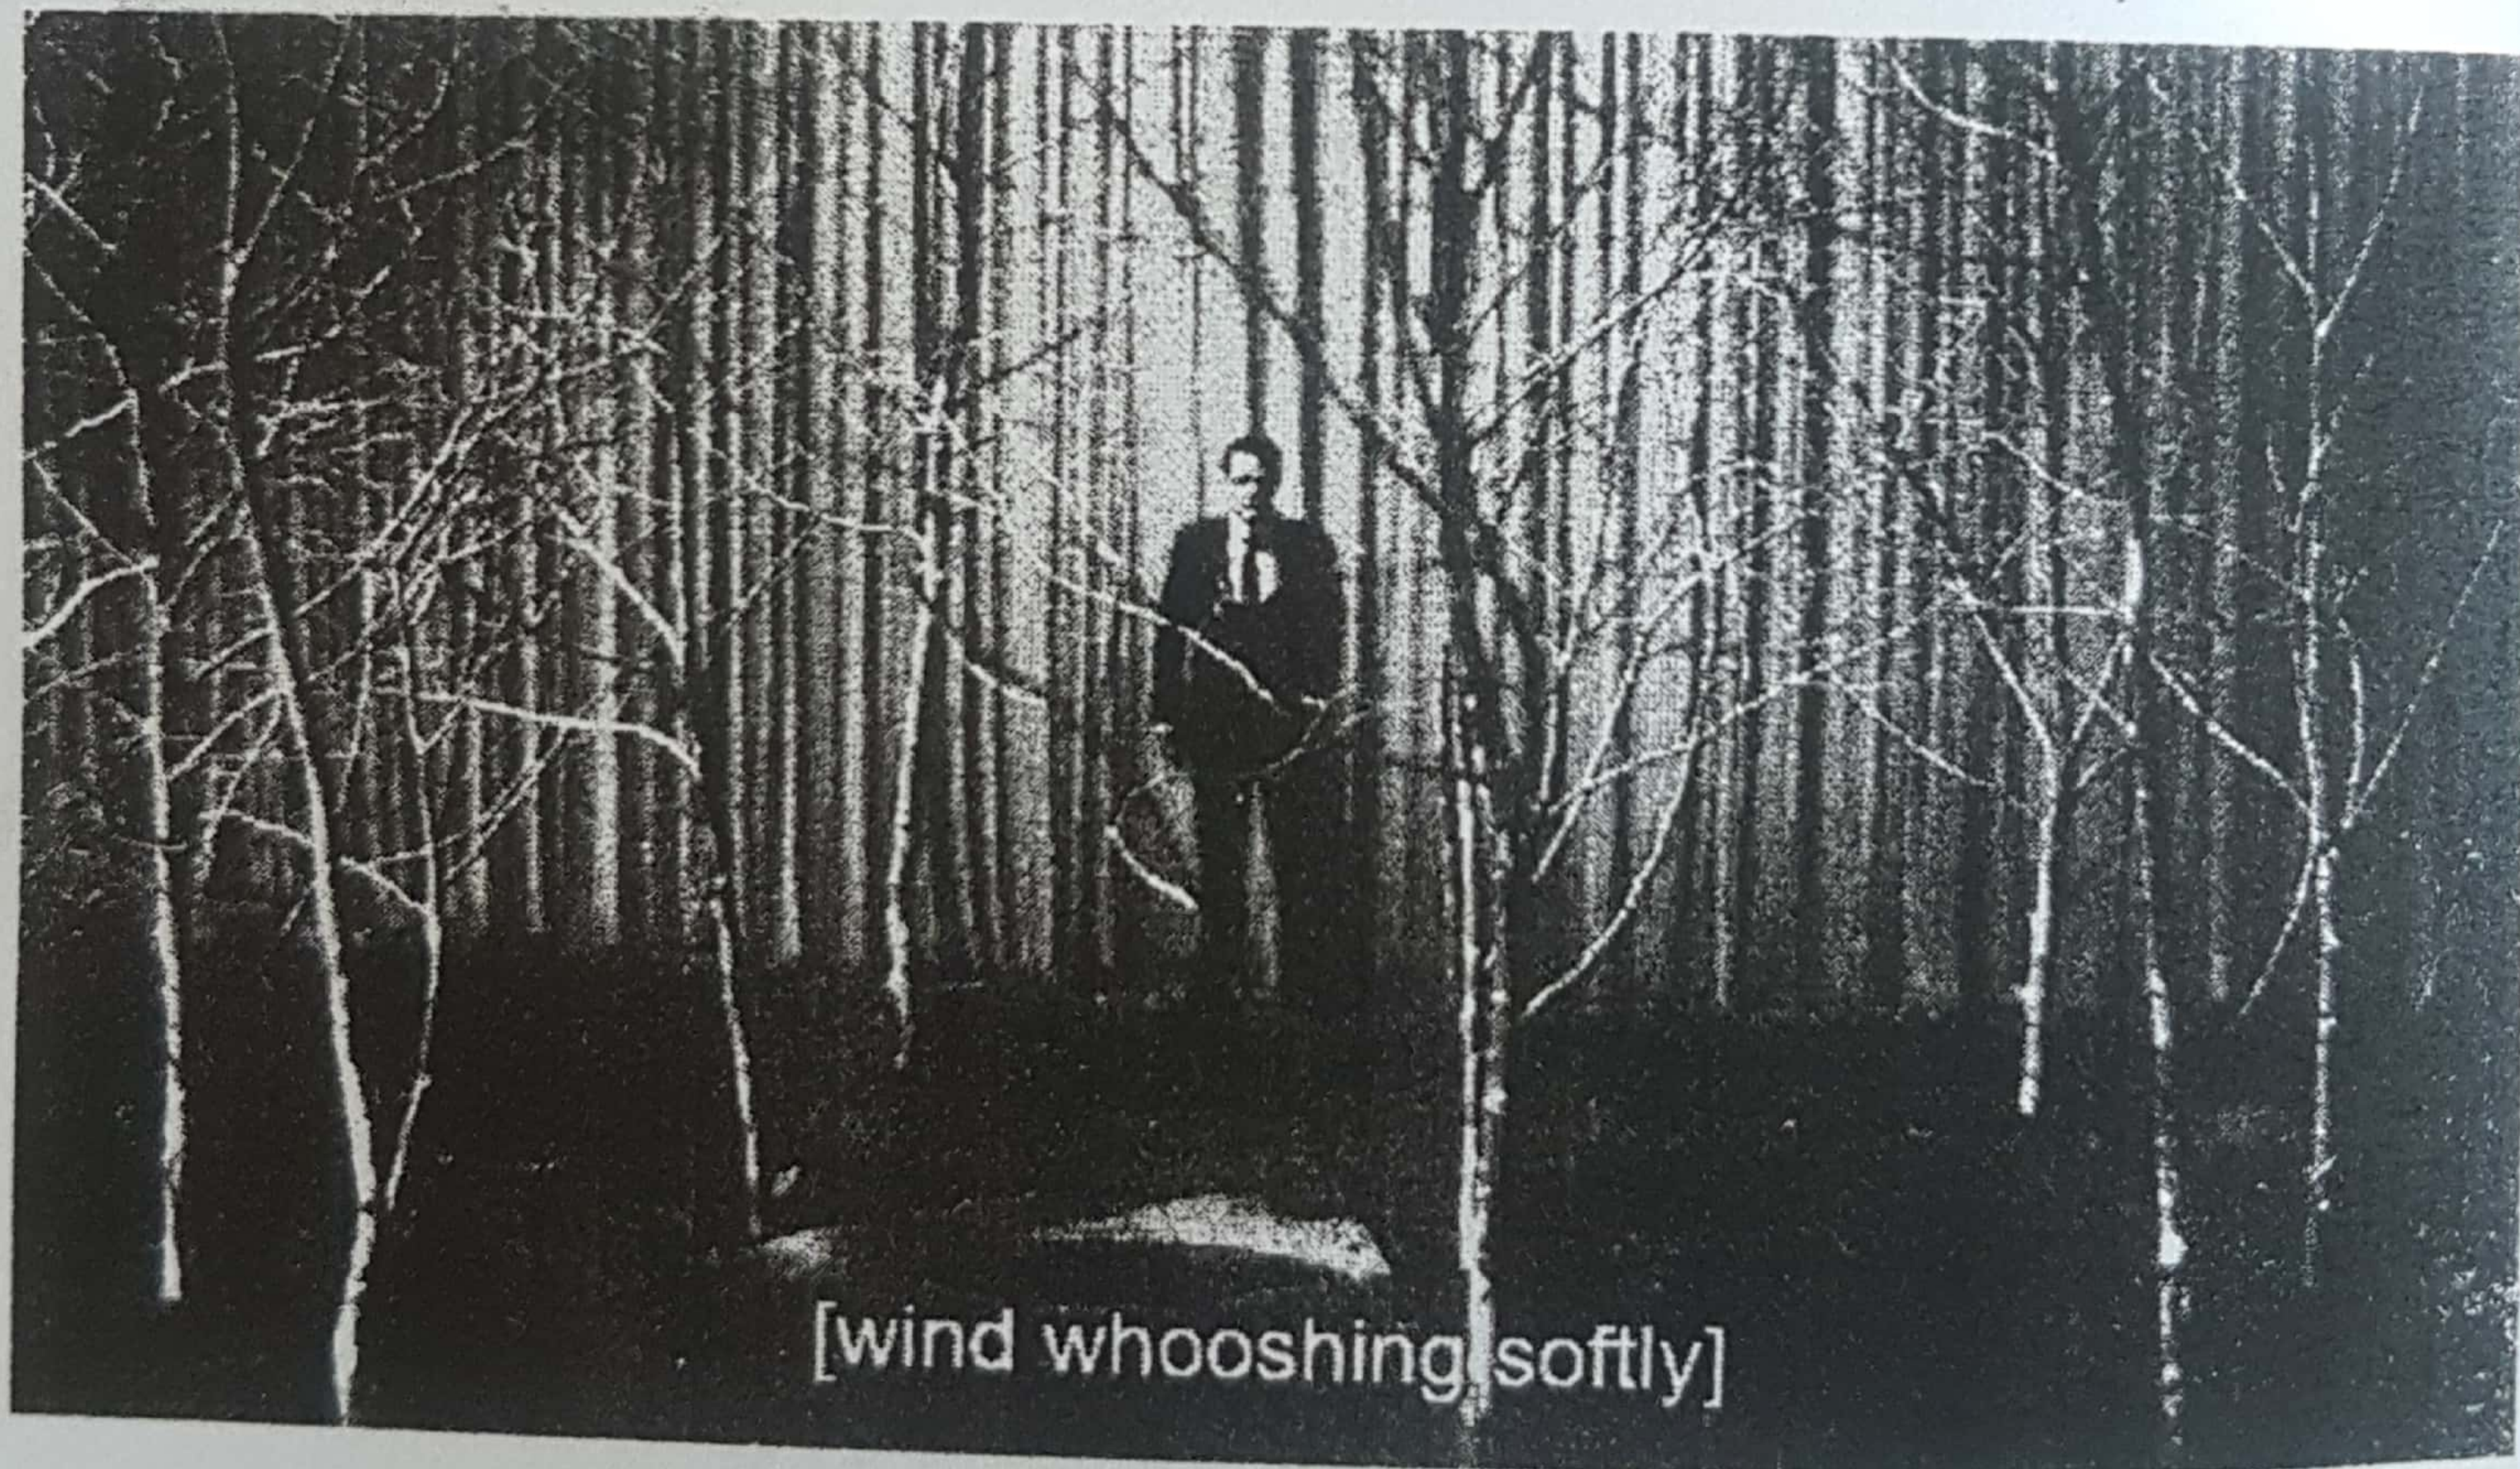

[faint atmospheric whooshing]

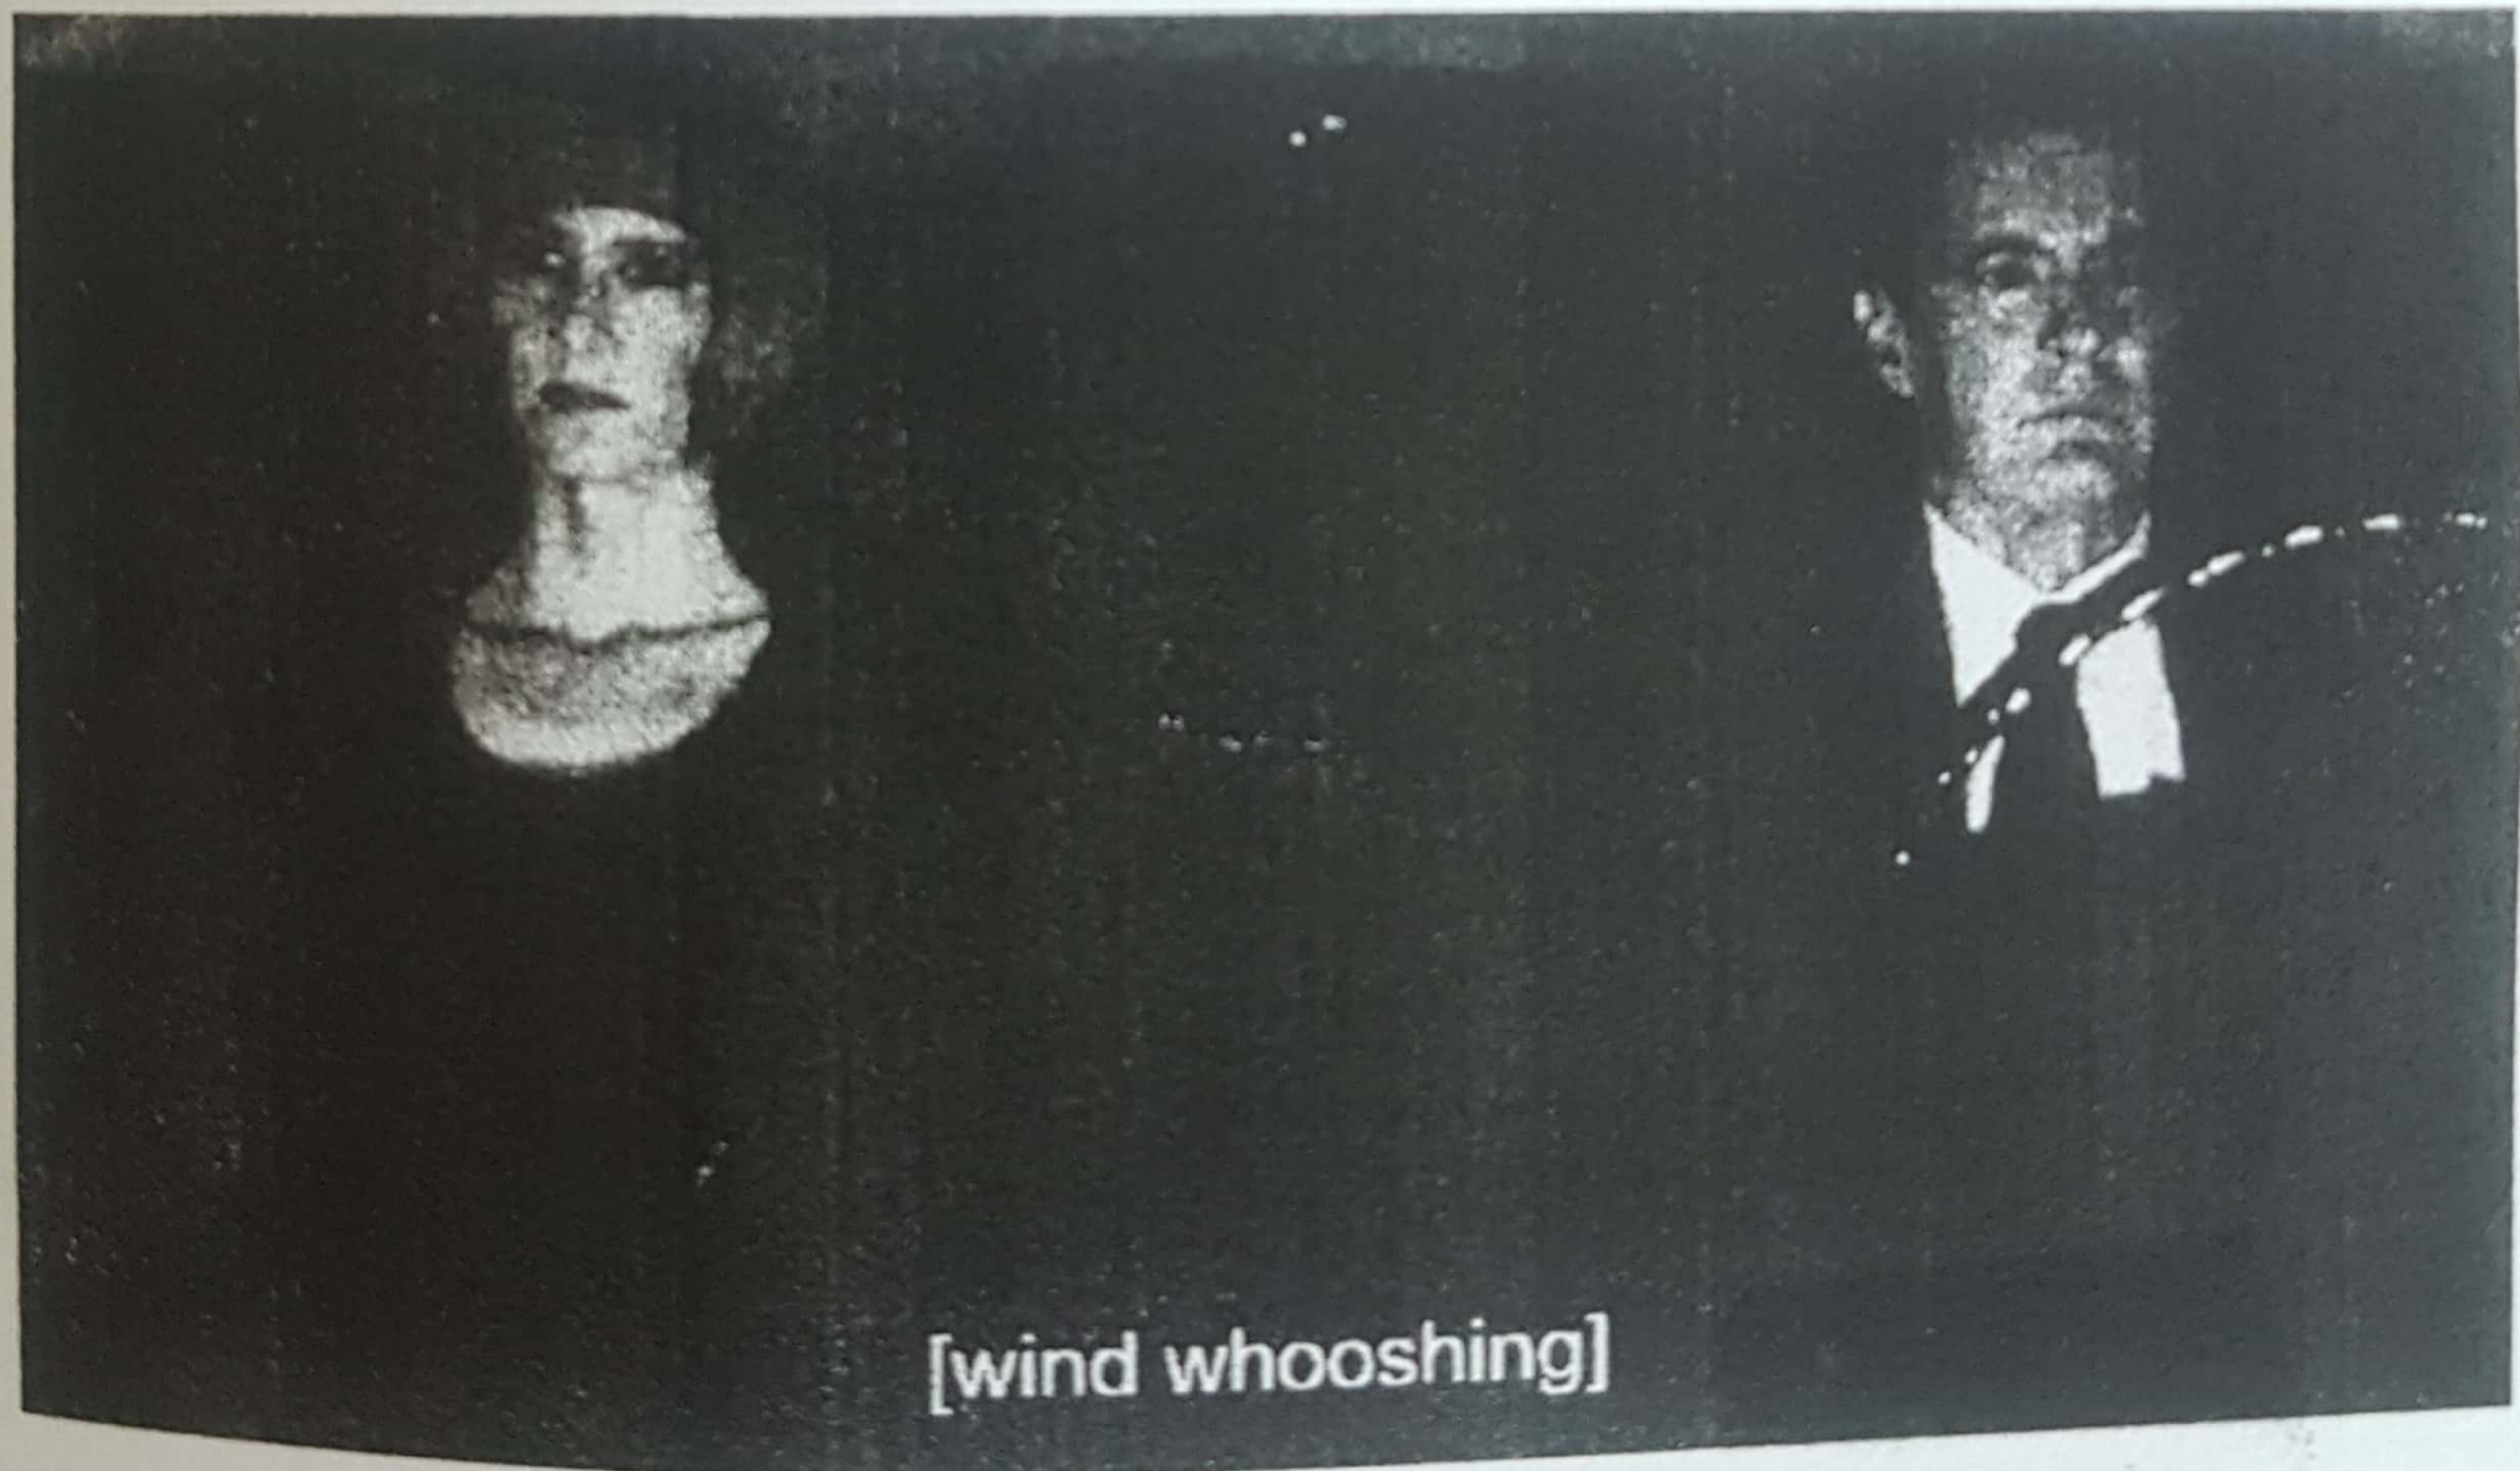

[wind whooshing intensely]

[wind whooshing softly]

[wind whooshing softly]

[wind whooshing]

[car whooshing past]

[screaming, whooshing stop]
