CORONA CRISIS

I know we are all probably sick of hearing about covid-19, but yes, I'm going to bring it up! Apart from being a tragic pandemic and difficult to wrangle health crisis, the disease has wreaked havoc with my honours year! First week, classes were cancelled, second, they were running, then no, they're actually going to be online, then no AGAIN, they are actually cancelled. Ya girl needs some routine/stability. Pray for me.

THE BEST OF TOM ROSENTHAL

BIG POT OF HUMMUS

An absolute classic. If you only listen to one, make it this one! It's literally a song about appreciating life and having hummus.

YEARS YEARS BEARS

A nonsense song he wrote and recorded with Dodie Clark.

HUGGING YOU

Sweetest lyrics of any lovesong. There are two versions of this one: a faster one and a slower one.

YOU MIGHT FIND YOURS

A song about falling back in love with the world around you and life itself.

P.A.S.T.A.

Literally a song about how much he loves pasta.

TOBY LARR'S DIFFICULT RELATIONSHIP WITH TUNA.

A right laugh. First of Tom's songs I ever listened to!

This zine was made on
the stolen land of the
Bunerong people of the
Kulin nations. Sovereignty
was never ceded.
