Place a heaped teaspoon (2.5 grams) of tea per cup (250ml) into a teapot or infuser. Add filtered water at 75°C-85°C and allow to infuse for 3-5+ minutes. Strain the tea and serve.

Finished this packaging, sent it off to the company that sent it off to the **Supermarket** where you bought it, ripped it up, pulled me out, stirred me up, baked me, ate me, and then threw the packaging inside that **green** recycling bin with a yellow lid.
